A Sampling of Listener Comments

EMAILS:

Disappointed in Air Talk for airing segment on chemtrail conspiracy theories. Really Larry?

Please bring Fresh Air back to the 8pm time slot. At the end of the day I want to relax and listen to a thoughtful in depth interview. Not 1A.

What happened to Science Friday???? It's 9pm on Friday, and the Moth is on. ;-(

the New Yorker Radio Hour?!? Really? Not only completely out of context but poorly done as well. Certainly you can do better

As a longtime listener and supporter, I am so disappointed that you have moved Science Friday to midnight from 9pm on Fridays. I can't stay up that late, and love to listen to the show in my car on a Friday night. Any chance you will move it back to an earlier time? Thank you. KPCC is a great service to So Cal.

PHONE:

1/31/18 - We just received a call from a listener, who was tuning into The Frame. She wanted to pass along the comment that she, a UCLA Alum, felt very insulted when John said, "Boo" after the guest mentioned her alma mater. She says that it is a major institution of the state and shouldn't be referred to in a such a way.

2/2/18 – When promoting when programming can be heard on KPCC, the listener would like more detailed information. He suggests that if a program is going to air more than once during the day to announce that in one advertisement.

2/3/18 – Listener is very disappointed that Science Friday moved times.

2/8/18 – A listener called in and commented that when stories are being delivered about people who may need resources, having that additional information, if possible, on how to help them would be nice. She was interested in trying to help the young woman who had been constricted in a straight jacket for 10 hours. And had her child taken away from her.

2/26/18 - We received a call from a listener, who passionately voiced her concerns about having self-driving cars on the road. And feels that when such topics are being discussed on air, that the potential dangers of it should also be included in the discussion (i.e....somebody with a bomb, terrorists)

Fresh Air – Listener did not appreciate hearing the word BITCH during an interview on Fresh Air.

Airtalk – Listener called in and wanted to express her disappointment that Airtalk was praising Anti-Semitism by honoring Billy Graham.
