Peter, thank you. I have just been informed that they were able to reach the transmitter site today and found the transmitter is in workable shape. Power was also restored and they are now operating from the main transmitter.

/Joe.

Request is granted contingent on you providing me a RELIABLE point of contact (email or phone) to resolve IX issues that arise over the weekend.

Norm, here is the formal KUOR-FM emergency STA request. A copy will be filed by hand as well. The licensee is a non-commercial station so no application fee is required.

Thank you in advance for your assistance.

/Joe
